CAREER OBJECTIVE

A passionate and results-oriented Software Engineer with 3 years of experience, I am seeking a challenging role where I can utilize my technical skills and contribute to the creation of innovative applications. I am dedicated to producing high-quality code and continuously enhancing my abilities to adapt to the ever-changing demands of the industry.

EXPERTISE / SKILLED

- AI & LLM integration
- Prompt Engineering, Orchestration & RAG
- Full Stack / MEAN Stack Development
- Angular & Node.js
- REST APIs & Microservices
- NoSQL (MongoDB) & SQL Databases
- Code Optimization & Performance Tuning
- Debugging & Problem Solving
- Scalable Application Development
- Clean Code & Best Practices
- Version Control & CI/CD Basics
- API Integration & Third-Party Services
- Responsive UI Development
- Software Development Life Cycle (SDLC)
- Strong communication and ownership mindset
- Quick learner with adaptability to new technologies
- Expert in DSA
- Strong familiarity with Git workflows
- Proficient with IDEs and developer tools

Experience

○ Projects & Tech

■ Codie - AI Agent

- CODIE

- AI Agent for Customer service
- Developed AI-driven customer service solutions using SAP, ABAP, Python, and Gemini LLM
- Worked on Prompt Engineering, RAG architecture, and MCP integrations
- Built scripting and UI functionalities using JavaScript
- Utilized Big Data technologies for data handling and processing
- Worked in Eclipse IDE for development and debugging

■ Contract Application - MEAN Stack

- AFL

- Contract Application for Australia Football League
- Web Technologies & Frameworks MEAN [MongoDB, angular, express, nodejs]
- Scripts/UI: JavaScript, Typescript
- Database & ORM: NoSQL
- IDE: visual studio code, sublime

○ Consultant Analyst - SMYTHS TOYS

- Delivered solutions to overcome obstacles and optimize learning.
- Created AI-driven customer service solutions to improve interactions and streamline processes.
- Enhanced AI models through Prompt Engineering and RAG architecture for better performance and integration.

■ SOFTWARE ENGINEER - Orion innovations

- Utilized collaborative workflows, agile methodologies, and data-driven insights to drive project success and optimize performance.
- Effectively managed multiple projects, prioritised tasks, and met tight deadlines while maintaining high-quality standards.

■ PROGRAMMER - Osiz Technologies

- Developed and maintained web and mobile applications using Full Stack (MEAN Stack) with a focus on multiple payment applications.
- Delivered 6+ high-quality projects on time, leveraging agile methodologies, collaboration, and strong problem-solving skills.

Professional courses & Education

○ WEB DEVELOPEMENT & ANGULAR JS

■ ELYSIUM ACADEMY

- Completed 3months Web development offline course 2020,
- Completed 3months Angular JS offline course 2021.
- Web Technologies & Frameworks: HTML5, CSS3.0, PHP8.0.0.
- Scripts/UI: JavaScript, DOM, AJAX
- Database & ORM: MySQL
- Web Debug Tools: Chrome developer tools
- Application/Web Server: Apache Tomcat 6.
- IDE: visual studio code, sublime

○ B.SC(COMPUTER SCIENCE)

■ M.G.N.M.R. SUBBARAMAN COLLEGE FOR WOMEN

■ WEB DESIGNING

- Completes 3months WEB DESIGNING offline course.

- gold medalist
